

## SEATEC 2009: ITALIAN VISITORS' SURVEY

Company **Hobbycolors Srl**  
Province TP  
Visitor's name: **Salvatore Di Girolamo**

I would like to see more exhibitors for small leisure boat owners but the quality of the service and the staff's helpfulness exceeded all my expectations; I have visited other trade fairs where the staff were not very helpful to exhibitors from other regions.

---

Company **Natali Lauro Rappresentanze**  
Province PT  
Visitor's name: **Lauro Natali**

Fully satisfied with your exhibitor and visitor reception organisation – good road system and free parking near to the trade fair entrances. I should like to point out that I have been visiting the Genoa Boat Show for over 25 years and every year I am more and more disappointed with their organisation and services, in particular for us trade visitors and exhibitors.

---

Company **Ab Trasmissioni Srl**  
Province FE  
Visitor's name: **Gloria Alberghini**

This is a trade fair that we have been following since it first began and every year it gains more identity and character. The exhibition is both functional and enjoyable, it would certainly be helpful if it were to take on a more international dimension.

---

Company **Intermarine Spa - Rodriquez**  
Province SP  
Visitor's name: **Fiorini Mauro**

I was fully satisfied with this annual event and, now that I have been visiting for many years I can but fully appreciate what you do every year to improve it and offer exhibitors and visitors products, materials and machines that are always market leaders. Thanks and see you next year.

---

Company **Navaltecnica**  
Province ME  
Visitor's name: **La Rosa Angelo**

A well-organised event, just right to make up for what is missing at the Genoa show. More services would be useful to reach the trade fair.

---

Company **Mare 2000**  
Province LU  
Visitor's name: **Belluomini Diego**

Seatec... an excellent fair that is an important date on our yearly agenda .. a larger number of exhibitors would not be a bad idea and maybe, seeing that there is never enough time, an extra day...

---

Company **Electric Service sas**  
Province OI  
Visitor's name: **La Barbera Vincenzo**

I really find this event more interesting from one year to the next.

---

Company **Cappellini Snc**  
Province CO  
Visitor's name: **Davide Cappellini**

..this is the first time that I have visited Seatec , I was surprised to find such an interesting, well-organised trade fair that makes visitors feel at home right from the start and above all exhibits quality, innovative products ..  
...congratulations!!

---

Company **Fipa Italiana Yachts Srl**  
Province MS  
Visitor's name: **Bagni Elena**

I would like to see it last longer including two weekends

---

Company **Mauro Uggé Boatyard**  
Province GE  
Visitor's name: **Uggé Mauro**

A successful event and one which has grown continuously since its first year. The technical level is good and perhaps, by extending it by one day (including the weekend) it would interest not only more visitors but also more exhibitors, especially foreign ones. A good formula, perhaps an extra day wouldn't be a bad idea.

---

Company **Assonautica**  
Province SP  
Visitor's name: **Chimenz Nunzio Giorgio**

I would appreciate more stands for products for small boat owners

---

Company **Officine Maggiali sas**  
Province SP  
Visitor's name: **Guglielmo Maggiali**

I have been to all the previous events and I can safely say that every year there have been improvements both in the quality of the exhibitors and the organisation. Congratulations on a great event that it really practical and useful for the industry.

---

Company **TNI Srl**  
Province GE  
Visitor's name: **Angelo Boero**

I think that much attention was paid to detail in SEATEC2009, I don't believe there are any shortcomings so for me it is an excellent event that I shall not miss next time around.

---

Company **Top Service sas di Mario Lorenzoni & C. Sas**  
Province FI  
Visitor's name: **Mario Lorenzoni**

Important producers and distributors shouldn't disregard the event showing barely enough products. Either you make a good exhibition or you may as well stay at home ...

---

Company **M/S Antonisa**  
Province TA  
Visitor's name: **Pierfrancesco Lupo**

I hope to see the current policy for developing the exhibition will continue.

---

Company **Maurizio Crocetti**  
Province PI  
Visitor's name: **Maurizio Crocetti**

I hope you manage to get as many exhibitors as possible to move from Genoa to your event so as to avoid contact with the general public and dedicate our time solely to people in the industry. It would be a good idea too to put the event forward to Sunday as many industry players are at work during the week and on Saturday they have sales appointments. My compliments for your consistently hard work, I still remember the first year with one hall...

---

Company **3 P di Pagliai Luciano & C.**  
Province FI  
Visitor's name: **Massimo Pagliai**

I should like to see a further increase in the range of goods.

---

Company **Abati Yachts**  
Province LI  
Visitor's name: **Antonio Fubiani**

I hope there is a further increase in Italian and above all foreign exhibitors, but quality ones!

---

Company **L'Assolata**  
Province LI  
Visitor's name: **Mannarig Carlo**

My compliments for this marine exhibition that is just the right size that makes all visitors feel like possible buyers ... maybe of a three-metre dinghy. I might suggest the inclusion of the fishing "world".

---

Company **3G Yachting di Brunetto Giovanni & C. Snc Manuten**  
Province SV  
Visitor's name: **Tiziana Saccone**

We were pleased to see how the exhibition has developed and enlarged; we should also like to see the demonstration of the application of products for the filling and painting of pleasure boats.

---

Company **Blue Wave Yachts**  
Province LU  
Visitor's name: **Roberto Guccione**

I think it is an excellent exhibition and I hope it grows to offer even more services and information with a still higher number of exhibitors.

---

Company **Canados Srl**  
Province RM  
Visitor's name: **Giovanni Senatore**

It is still a long way off from "Mets" in Amsterdam, but it seems to be moving in the right direction. I hope there will be more foreign exhibitors in the future.

---

Company **La Via Del Mare Soc. Coop. R.I. Charter Scuola Vel**  
Province FI  
Visitor's name: **Marco Scala**

I should be interested to see the participation of institutions such as the C.P. (Port Authorities) and the Ministry of Transport seeing that the new pleasure boat regulations have just been brought in.

---

Company **Rose Island Srl**  
Province BG  
Visitor's name: **Stefano De Franceschi**

I should like to see more companies exhibiting from the marine industry and associated industries.

---

Company **Bernabe**  
Province MS  
Visitor's name: **Bernabe**

More shipyards taking part would be nice to see.

---

Company **Novelradio Srl**  
Province MI  
Visitor's name: **Andrea Gementi**

What would most make you want to come back next year? The participation of shipyards and shipping companies

Brief comments: An exhibition for the industry which promotes stimulating networking although shipyards and shipping companies are missing. I enjoyed the warm tasty dinner offered by the exhibitors.

---

Company **ASTC**  
Province UD  
Visitor's name: **Gilberto Dorazi**

I should like to see more foreign exhibitors.

---

Company **Privato**  
Province MS  
Visitor's name: **Baldiati Roberto**

Maybe there is something missing in sailing but I think it has become a very interesting event even for those, like me, who have just a small boat. I would even go so far as to say that it is more interesting than the Genoa show that I think concentrates too much now on the display of boats.

---

Company **Irony Srl**  
Province SI  
Visitor's name: **Sergio Valsecchi**

An exhibition that fully satisfies its objectives with a wide range of quality exhibitors in each area, well-organised, I believe it will grow and grow.

---

Company **Bortolanza**  
Province VI  
Visitor's name: **Bortolanza Antonio**

SEATEC is obviously an event meant for the industry and is definitely useful. Many of the companies exhibiting also exhibit at other leading shows but there are so many things to see at these and such a large public that it is difficult to make careful assessments. Here in Carrara on the other hand, it is the right size.

---

Company **Migaland**  
Province FI  
Visitor's name: **Alvisi Ivo**

My visit to the exhibition was a positive experience to see what is new and get to know new exhibitors.

---

Company **Electrowave**  
Province RM  
Visitor's name: **Marco Scippa**

The only criticism I would make is the bars and restaurants where I ended up having to stand, after walking all morning it would have been nice to relax even for just 10 minutes to eat a sandwich and drink a coffee.

---

Company **Studio Engineering Srl**  
Province GE  
Visitor's name: **Pietro Navarra**

It would be good to see more shipyards exhibiting.

---

Company **Eurodinamica Srl**  
Province MO  
Visitor's name: **Fabbi Giovanni**

More exhibitors for port, mechanical and handling equipment.

---

Company **T.T.M. srl**  
Province GE  
Visitor's name: **Angelo Marletta**

Seatec is undoubtedly growing both in terms of quantity and quality. The latter encourages of course the presence of people working in the industry.

---

Company **TTS Tooltechnic Systems Srl**  
Province MI  
Visitor's name: **Dario Mazelli**

I had the pleasure to take part in the previous years as an exhibitor. Coming this year as a visitor I had confirmation of the fact that from my experience it is the most interesting and most technical exhibition in the marine industry. You can see and compare many technical and applicational solutions here. It is an excellent opportunity to see what is new and share experiences. I would suggest even more practical and applicational examples of the various phases in the construction and maintenance of ships.

---

Company **Myosotis Srl**  
Province OI  
Visitor's name: **Massimo Vaccaro**

My compliments the exhibition is growing more and more every year, I hope it will have more and more exhibitors.

---

Company **Cantieri Navali Baglietto Spa**  
Province SP  
Visitor's name: **Jacopo Rizzotti**

I should like to see more foreign suppliers and suppliers related to large yachts ( 60/70m)

---

Company **Azimut Benetti**  
Province Lu  
Visitor's name: **Spina Franco**

Next year I would like to see more new things in the fitting out of large pleasure yachts

---

Company **D'Aiuto Franco**  
Province SP  
Visitor's name: **Elena Ghelfi**

I should like to find some fishing stands: for equipment and clothing

---

Company **Alessandro Gentili**  
Province RM  
Visitor's name: **Alessandro Gentili**

I would very much like to see a few technical areas where installers could show the actual installation of their products.

---

Company **A. Pacinotti Sas**  
Province PI  
Visitor's name: **Alfredo Pacinotti**

I am a very small company and I felt a little out of place but I did appreciate the invitation, I can only say that too often the staff on the stands looked good but were not competent. It may be a good idea to give a better layout and grouping of exhibitors

---

Company **Lariovela**  
Province LC  
Visitor's name: **Giorgio Momoli**

An interesting exhibition, finally a technical exhibition without boats.

---

Company **Fratelli Purcaro Soc. Coop.**  
Province na  
Visitor's name: **Purcaro Giuseppe**

An interesting exhibition and one that is continuously updated which is very useful to the marine industry, I hope to find new exhibitors with different products next year.

---

Company **Pietro Sgobba & figli Srl**  
Province BA  
Visitor's name: **Donato Sgobba**

This is an essential exhibition for shipyards.

---

Company **L & S**  
Province PN  
Visitor's name: **Cristiano Falcier**

It may be more useful to take part as an exhibitor

---

Company **Piolti**  
Province CO  
Visitor's name: **Pioltelli Massimo**

As far as I'm concerned Seatec is just fine the way it is.

---

Company **Eligio Re Fraschini SpA**  
Province MI  
Visitor's name: **Rusconi Fabio**

This year I was a visitor at Compotec too and I think the quality of your exhibitions makes them well worthwhile visiting.

---

Company **MDYacht**  
Province MO  
Visitor's name: **Melone Domenico**

Seatec is stimulating for the new things on show.

---

Company **F.LLI Puccinelli**  
Province LU  
Visitor's name: **Fabio Zinzio**

Next year I hope the staff will be able to speed up registration on line.

---

Company **Oto Melara**  
Province SP  
Visitor's name: **Michele Comparetti**

I have to say that this year I noticed a clear improvement in your exhibition in all ways, even though I would like to see more marine engine exhibitors and small, medium-sized pleasure boats.

---

Company **Ufficio Progetti Di Vecchio Giancarlo**  
Province FI  
Visitor's name: Giancarlo Vecchio

I would like to find more exhibitors of CAD systems used for design in the marine industry. All in all the exhibition was very interesting.

---

Company **Sechshippig**  
Province OR  
Visitor's name: **Danilo Sechi**

More signs for the location of stands and assistance to visitors inside the halls. Excellent outside and in between the various halls, excellent layout, lights and colours.

---

Company **Monti & Barabino**  
Province GE  
Visitor's name: **Lorenzo Sanna**

Compared to previous years, there seemed to be more exhibitors and visitors, I think though it would be interesting to see more from heavy shipbuilding.  
Registration compares well on a European level in terms of its practicality; despite the recession in the nautical industry the atmosphere was positive throughout. The idea to have the event on next year excluding Saturday is a great idea, that I think exhibitors will appreciate too.

---

Company **I.L.CA. Srl**  
Province TV  
Visitor's name: **Rino Battistuzzi**

Only a few exhibitors involved in the fitting of cabins in the sleeping area. Not many meetings with boat owners or subcontractors for the new construction or renovation of cruise ships.

---

Company **Volpi S.P.A.**  
Province MS  
Visitor's name: **Andrea Bettoni**

I have been coming to SeaTec since the first year, initially with Nauticad s.r.l. as an exhibitor and now with Volpi S.p.A., initially as an exhibitor and then as a visitor. I should like to see more companies from the furnishings sector, however I think this is an interesting exhibition that is well-organised and a good showcase for our area.

---

Company **CIERREPI di Pastorelli Ivano**  
Province MI

Visitor's name: **Ivano Pastorelli**

This is a point of reference for those who want to be technically up-to-date – essential for experts in the naval and pleasure boat industry. It would be nice to see models of the various shipyards

---

Company **Novacavi Spa**

Province MI

Visitor's name: **Giorgio Zerega**

The recession is of course here and even the more optimistic amongst us are obliged to recognise that 2009 will be negative too – so trade fairs are more than welcome to promote companies

---

Company **Milco Migliori**

Province FI

Visitor's name:

Theory (university) and practice come together in the work environment, so I should like to ask this organisation to try to establish a more efficient relationship between the universities and the organisations related to the the world of naval work

---

Company **Signo Motus S.R.L.**

Province ME

Visitor's name: **Letterio Scibilia**

Really interesting points for who is involved in naval design, with a wide range of solutions for all aspects of design. Naval boatyards as exhibitors would be a good idea.

---

Company **Solimar**

Province FC

Visitor's name: **Emiliano Fabbri**

For 2010 I would like to see innovative products developed during the period of recession.

---

Company **Ufficio Tecnico Nicodemi**

Province MS

Visitor's name: **Alessandro Nicodemi**

Seatec 2009 was a good meeting place for those who do not go to sea only for work but also for pleasure and passion. Keep up the good work!

---

Company **Rag. Edoardo Lubrano**

Province SP

Visitor's name: **Edoardo Lubrano**

Unfortunately I only had a couple of hours, I would have liked to stay the whole day; I found the event to be extremely well organised.

---

Company **Eaton Fluid Power Srl**

Province OI

Visitor's name: **Franco Gervasi**

The quality of the services just passable, not because of the staff who were very helpful but for the registration system which was maybe "too technological".

---

Company **Arco Spedizioni Spa**

Province MI

Visitor's name: **Barbara Vignoli**

I think that if the areas could be divided according to the products it would be easier to get around and compare exhibitors.

---

Company **Harpo Spa**

Province TS

Visitor's name: **Antonio Pintar**

I don't think that the idea to close the exhibition in 2010 on Friday is a good idea, leaving out Saturday which is traditionally left for meetings on another level. A.Pintar

---

Company **Tuttolegno Di Badano**  
Province GE  
Visitor's name: **Maurizio Sardu**

I expect to see more exhibitors for naval furnishings

---

Company **Viareggio Super Yachts**  
Province LU  
Visitor's name: **Davide Pizzi**

I would suggest the inclusion of seminars on company planning and organisation

---

Company **Intermarine**  
Province SP  
Visitor's name: **Francesco Savalli**

I would like to see a seminar on plants and systems in general

---

Company **Boldi Simone**  
Province GR  
Visitor's name: **Boldi Simone**

An even higher number of exhibitors and new things of interest especially in the area of boat restoration and relevant equipment

---

Company **Ferretti Spa**  
Province FC  
Visitor's name: **Michelangelo Casadei**

I should like to see themed sessions on technology, plants, systems on board with technical and economic comparisons between tradition and new products.

---

Company **Non Solo Blu**  
Province VE  
Visitor's name: **Carla Munerotto**

I realise it's a technological exhibition – but I did expect to see ornaments with marine themes – things I sell in my shop.

---

Company **Pershing**  
Province PU  
Visitor's name: **Roberto Inzadi**

I am very interested in the conferences and workshops

---

Company **Nicola Martinuzzi**  
Province OI  
Visitor's name: **Nicola Martinuzzi**

I hoped to find something about:  
Renewable energy such as wind, sun and propeller  
Innovative antifouling, environment-friendly paints  
Equipment and accessories for sailing boats

I should like to emphasise that I am not from the industry, just a boat owner, so my comments may seem strange.

---

Company **Circolo Velico Cinquale**  
Province OI  
Visitor's name: **Angelo Matteini**

A well-organised exhibition. An impressive number of qualified companies, including foreign companies specialised in advanced technology. For 2010 I hope to find electronic navigation instruments

---

Company **Privato**  
Province SP  
Visitor's name: **Marco Buffoni**

I should like to see Seatec open on Sunday too

---

Company **Pesca In Mare**  
Province FI  
Visitor's name: **Alessandra Chirimischi**

I should like to find sports accessories (fishing and other) even though this may not fit in with the content of the exhibition.

---

Company **Altomare S.R.L.**  
Province RM  
Visitor's name: **Adriano Pecci**

SEATEC is a great tool for the industry for information and updates as well as new contacts. For those who do not work in the industry but who are potential customers, it is an extremely good way to get updated and see what the market has to offer. I find the current layout of the exhibition more than satisfactory.

---

Company **Benetti**  
Province LU  
Visitor's name: **Daniela Gori**

I should like to see further conferences on important topical issues in the industry.

---

Company **Arredorama International S.A.**  
Province OI  
Visitor's name: **Andrea Storage**

As an old nautical fan and a new internet navigator I would like to see you out there on facebook that really is the new form of international communication. Apart from that, as I said when I filled out your well-written questionnaire, the exhibition fully met my expectations and despite the obvious differences in size, compared to other exhibitions focussing on furnishings that I have seen all over the world, I would emphasise my appreciation of the organisers and the level of the exhibitors as well as the kindness and professional flair of your staff. In the future I would also like to see a connection with the port in Marina for see trials! Mini boat show! Very well done. Andreastorage3@gmail.com

---

Company **Officine Marchetti Spa**  
Province MS  
Visitor's name: **Dell'Amico**

Excellent trade fair, definitely to be enlarged in all areas.  
Shame there are no hotels for customers

---

Company **Castoldi Spa**  
Province MI  
Visitor's name: **Luigi Narratone**

Let's hope there is an increasing number of exhibitors from all over the world in the area of nautical accessories at all levels.

---

Company **Delfino Sas**  
Province SA  
Visitor's name: **Criscuolo Giuseppe**

I think that SEATEC is the right idea for all components for pleasure boats, the right place to find what is new and be updated, what is necessary for a job well done in a short time with financial savings for both the shipyard and the boat owner. I would also like to see a specific area for ordinary and exceptional maintenance with demonstrations.

---

Company **Arrigo Tendaggi**  
Province RE  
Visitor's name: **Graziano Veronesi**

I found the trade fair very interesting.  
I hope I will be successful with my new contacts.

---

Company **Mondomarine**  
Province SV  
Visitor's name: **Stefania Baroni**

I would appreciate a more careful division of the stands according to type of goods, however all in all SEATEC is the annual meeting point for companies in the industry and it is interesting to see that every year there are more exhibitors and companies represented.

---

Company **Globalia Srl**  
Province TV  
Visitor's name: **Antonio Carrabs**

More attention should be paid to luxury yachts with the presentation/proposal of specific products/systems (audio video-communication-surveillance etc.)  
"Navigating is not a necessity; living is"

---

Company **Alta S.P.A.**  
Province PI  
Visitor's name: **Stefano Caneschi**

It would not be a bad idea to have more exhibitors in the composites area, raw materials, processing and finished products (but there is anyway COMPOTEC..., right?)

---

Company **Bfattrezzature**  
Province PI  
Visitor's name: **Ing. Sergio Franchi**

Seatec will have to continue to attract visitors to the next year's exhibition, whatever his/her interests are.

---

Company **Simone Lorenzoni**  
Province SI  
Visitor's name: **Simone Lorenzoni**

The car parking should be improved, I had to queue for an hour to get out!

---

Company **Navaltecnicca Tricomi Giovanni**  
Province ME  
Visitor's name: **Giovanni Tricomi**

This is an event that should fill the enormous shortcomings of the Genoa boat show. I hope that the quality of the transport and accommodation gets better in the future.

---

Company **Cantiere Navale Golfo Di Mola**  
Province LI  
Visitor's name: **Carlo Tinacci**

In the future I hope to find more engines exhibitors, both manufacturers and spare parts suppliers.

---

Company **Individual**  
Province GE  
Visitor's name: Antonio Lombardo

I should like to see an area for crew to have more contact with companies to have a better knowledge of new products on the market

---

Company **Editoriale Olimpia/Free Lance**  
Province OI  
Visitor's name: **Maurizio Pastacaldi**

Seatec is fine as it is, I would organise the outside parking area better..  
Being from Tuscany myself, I am happy that this event is in our area.  
Class, professionalism and excellent exhibitors..  
My compliments. M,P.

---

Company **Sherwin-Williams Ae**  
Province LT  
Visitor's name: **Daniela Ghiani**

I would like to see boats exhibited

---

Company **Casa Di Vela Elba**  
Province LI  
Visitor's name: Gigi Monteleone

I have seen the exhibition from when it began and I congratulate you on the constant positive and careful growth.  
I am not used to giving compliments (and for my presentation, visit our school's site: [www.casadivela.it](http://www.casadivela.it) )

---

Company **Veleria Andrea Mura Sail Design**  
Province CA  
Visitor's name: **Andrea Mura**

I am happy to have decided at the last minute to visit Seatec. It was very interesting. Without the general public I had the time to speak with the exhibitors at a leisurely pace. I have put Seatec on my yearly agenda. Thanks. Andrea Mura [www.mura.it](http://www.mura.it)

---

Company **Semp Di Reboa Angelo**  
Province SP  
Visitor's name: **Angelo Reboa**

I should like to be an exhibitor

---

Company **Consorzio Nautica Pisana**  
Province PI  
Visitor's name: **Antonio Schena**

The Consorzio Nautica Pisana will be Seatec next year too, it has become essential thanks to the quality of the exhibitors and the possibility to see what is new in the pleasure boat sector  
Antonio Schena Presidente CNP Pisa

---

Company **Savimar S.A.S.**  
Province NA  
Visitor's name: **Giovanni Savino**

Brief comments: Good representation of the state of the art. Easy access, well organised. Suitable duration of the event. Good registration system at the entrances. Courtesy of the staff. Keep up the good work and I shall await tickets for next year! Giovanni Savino

---

Company **MB di Moretti Simone**  
Province SP  
Visitor's name: **Simone Moretti**

My compliments to the organisers, I found this exhibition very interesting, less dispersive than the Genoa boat show and decidedly more technical and nearer to my line of work.  
For me it was an opportunity to meet my usual suppliers, find new ones and get a close-up on progress in the industry.

---

Company **Bluegame Yachting -Open Boat Italia**  
Province MS  
Visitor's name: **Daniele Telara**

My compliments for the exhibition. Really an international show: a good and necessary breath of fresh air for the industry; a way to work better together within the industry and react to the difficulties in this economic situation.

---

Company **Daniela Martelli**  
Province PT  
Visitor's name: **Daniela Martelli**

After visiting METS in Amsterdam, where the "atmosphere" was pretty grim, I found a wave of optimism at SEATEC and enthusiasm to move forward and hence good prospects for the future.  
Good luck for the coming years.

---

Company **Cantieri Marinesi**  
Province LI  
Visitor's name: **Stefano Ciumei**

A well organised event, an easily accessible location with good parking. Registration at the entrances a little on the long side.

---

Company **Il Faro**  
Province LI  
Visitor's name: **Giovanni Tobia**

I noticed that despite being a young fair it has made great progress, especially in the technical area of naval construction and relevant products. The only negative thing is that due to the great development in such a short time it is difficult to find parking. My compliments. Giovanni Tobia

---

Company **Camperbusiness Srl**  
Province PI  
Visitor's name: **Daniele Ceccotti**

I visited this fair which I found to be very qualified, I was able to find a good selection of products and services for design and production. Good services and attractive exhibition areas. D.Ceccotti - Camperbusiness.com

---

Company **Franco Fantozzi**  
Province FI  
Visitor's name: **Franco Fantozzi**

I appreciated the initial welcome and speedy registration. I was impressed by the exhibiting companies and their range of very interesting products and have already established contacts with some of these. Thanks for everything and see you next year.

---

Company **Privato**  
Province LO  
Visitor's name: **Fiorenzo Rho**

An interesting exhibition that grows every year and is becoming a point of reference for components and nautical equipment.

---

Company **Azimut Benetti Spa**  
Province LU  
Visitor's name: **Santini Leonardo**

As regards the level of the exhibitors the exhibition is in no way inferior to Mets. I think it should be better publicised and certainly improved in terms of welcome services since its location is excellent and definitely by far better than the Dutch fair's. You only have to consider the closeness of the motorways and the airport and the wonderful area where the hotels are situated.

---

Company **Matraia**  
Province LU  
Visitor's name: **Francesco Rossi**

The event is well organised, a good calendar of seminars and side events provides invaluable information for new ideas. It is also a good place to meet customers and suppliers, new and old.

---

Company **Finchelabarcava**  
Province IM  
Visitor's name: **Gabriele Valinotti**

The event is excellent for experts. It makes it possible to speak to companies which is sometimes very difficult at other exhibitions

---

Company **GP Agency Di Gaetano Pasculli**  
Province BA  
Visitor's name: **Gaetano Pasculli**

Seatec is the Italian alternative to the Dutch Mets.

---

Company **Honda Italia Industriale Spa**  
Province RM  
Visitor's name: **Vincenzo Paduano**

Efficient organisation

---

Company **Stn Sas**  
Province SP  
Visitor's name: **Cesare Vitali**

I think that SEATEC is, on a national level, one of the best exhibitions for the pleasure and commercial nautical industry. Technically, for me, it is better than the Genoa boat show (obviously not considering the purely exhibition part)

---

Company **Incofin Srl**  
Province MI  
Visitor's name: **Fabrizio Zaninello**

Fully satisfied, as a company we are considering the possibility of exhibiting next year.

---

Company **Elettroyacht Di Antireno Sergio E Zolezzi Paolo Lu**  
Province GE  
Visitor's name: **Paolo Zolezzi**

This year Seatec exceeded my expectations, I thought it was much better than last year. Excellent organisation. Thanks again for the pass you sent me, can I put your link on my website?  
Zolezzi Paolo - [www.elettroyacht.it](http://www.elettroyacht.it)

---

Company **Hermes**  
Province GE  
Visitor's name: **Lorenzo**

I believe SEATEC has now fully established itself as the most important Italian exhibition in the nautical and naval industry. My compliments to the organisers.

Company **Rebo Yacht Service Srl**  
Province UD  
Visitor's name: **Reboldi Francesco**

I think the formula of the trade fair for the industry is continuing to be successful and contributes to heightening the professionalism of the entire shipbuilding and maintenance industry.

---

Company **Antares Srl**  
Province SP  
Visitor's name: **Bellavina Giovanni**

I think it is very useful to be able to compare the various products and equipment and well organised events like the Seatec provide an excellent opportunity to do just that in a short time with many brands of a high technical level at one time.

Company **Enea Mat**  
Province RM  
Visitor's name: **Claudio Cappabianca**

It would be a good idea for next year's exhibition to include quality control for materials and components as well as staff training. This is fundamental to ensure the high level of our industry, on an international level too.
