

## Visitors from abroad at Seatec 2009: some comments

### **BLUE PETER AB**

Trosa , Sweden  
NIKLAS AVELIN    Owner

We will definately visit SEATEC again and again...

---

### **TEIGNBRIDGE PROPELLERS LTD**

MARK PHARE        Operations Director

This was the first time Teignbridge Propellers had exhibited or visited at Seatec. I was impressed by the location, ease of access and parking. The exhibition was professionally presented and larger than expected with an excellent array of manufacturer's and suppliers. I met with representatives of Italy's premiere boat brands, so for Teignbridge Propellers, we considered the exhibition a success.

### **KOREAN INTERNATIONAL BOAT SHOW**

MR ANDREW MCCALL    Sales Consultant

A very well organised show. I did not realise that the show was very super yacht orientated and at this stage the exhibitors were not appropriate for the emerging Korean market. I very much enjoyed my visit to the show. I may return next year, but it depends on the speed of the new market developing in Korea. I am working with UCINA on this project.

---

### **ABT TRAC**

DAVID LEMOINE    Territory manager

The Seatec event continues to be an important tool for our distribution within Italy and also into neighboring markets.

---

### **GENERAL MAINTENANCE LTD**

MATTHEW CAMILLERI    Director

Very interesting fair. Would definately visit again next year

---

### **Maritime Research Institute Netherlands (MARIN)**

Wageningen, Netherlands  
Enrico Della Valentina    Project Manager

I didn't have high expectation from this local exhibition although I knew the region is leader in the ship building with a strong tradition.

The quality of the events I attended and participated (Yacht Engineering Forum), convinced me of the potentials of this exhibition. The organisation of the event, the free parking areas, the clever subdivision in pavilions and the presence of several interesting medium small exhibitors surprised me in a very positive way.

Hoping that the present economical situation will not impact too much the edition of 2010, I send you my compliments and best regards, Enrico Della Valentina

### **ELLYYACHTS**

Laurion, Greece  
Ellyyachts

A welcoming event covering the Italian market technology, not to be missed.
